

Legal Nurse Consulting The Industry Vickie Milazzo Created

The 10 strengths that founder Vickie L. Milazzo, RN, MSN, JD, reveals in her [New York Times bestseller *Wicked Success Is Inside Every Woman*](#) are what made it possible for her to revolutionize her nursing career and create the new profession of [legal nurse consulting](#). In 1982 she began training other nurses, and then in 1994 she developed the first legal nurse consulting certification.

A Certified Legal Nurse Consultant^{CM} is a registered nurse who uses existing expertise as a healthcare professional plus specialized CLNC[®] training to consult on medical-related cases at fees of \$125-\$150/hr. Nowhere else can an attorney find this level of cost-effective expertise for reviewing medical records and understanding the terminology and subtleties of the healthcare system.

The legal nurse consulting profession enables experienced RNs to continue their nursing careers outside the traditional clinical setting. Most CLNC[®] consultants work independently from home part time or full time and design their CLNC[®] business to match their preferred lifestyle.

As a vital member of the litigation team, [Certified Legal Nurse Consultants^{CM}](#) help to educate attorneys, juries, plaintiffs, defendants and judges on medical-related issues. The CLNC[®] consultant's professional contributions are often critical to achieving a fair and just outcome for all parties.

Graduates of our [#1 bestselling training program](#) have consulted on cases ranging from simple neck injuries caused by auto accidents to medical malpractice cases to high-profile cases and groundbreaking litigation such as Avandia[®].

Currently, 1,203,097 plaintiff and defense attorneys practice in the U.S. A large number of these attorneys litigate medical-related cases and use the professional services of CLNC[®] consultants. Additionally, CLNC[®] consultants provide healthcare expertise for insurance companies, utilization review firms, government agencies, private corporations and hospitals, both as staff members and as consultants.

[CLNC[®] services](#) include conducting medical literature research, interpreting medical records, assisting with discovery, preparing reports and summaries of the medical records and locating expert witnesses. Although most CLNC[®] consultants work behind the scenes, they may also serve as expert witnesses.
